# COVID-19: Management of Severe Respiratory Illness in Pediatric Patients

April 17, 2020

<p><b>What's New?</b></p>	<p>This guideline was created for providers in British Columbia to provide guidance as to the basic essential care needs of pediatric patients with known or suspected COVID-19 infection to ensure such patients receive optimal, consistent care.</p>
<p><b>Why?</b></p>	<p>This guideline was created to ensure patients receive optimal and consistent care across British Columbia.</p>
<p><b>How does this affect my practice?</b></p>	<p>Guidance in the following areas was designed for providers who are trained to provide pediatric care:</p> <p><b>COVID-19 (Novel Coronavirus) Resources Index</b></p> <ul style="list-style-type: none"> <li>A. Infection Prevention and Control</li> <li>B. Preparation and Admission of patients</li> <li>C. Transport within Hospital</li> <li>D. General Care</li> <li>E. Code Blue</li> <li>F. Respiratory management</li> <li>G. Medical Care</li> <li>H. Environmental Control</li> </ul>
<p><b>How do I find out more?</b></p>	<p>Refer to the guideline on ePops for more information <a href="#">COVID-19: Management Of Severe Respiratory Illness In Pediatric Patients</a></p>
<p><b>Who do I contact for further information?</b></p>	<p>Contributors of the guideline are outlined in the working group description on page 13.</p>
