

Eating Disorders Meal Plan: Planned Progression

When an Eating Disorder Diet Meal Plan is in place, a new order for a planned meal plan progression will discontinue the current diet order. (E.g. an order for Meal Plan B will immediately discontinue the order for Meal Plan A).

1. Search **Eating Disorders Diet Pediatric**
2. Select the **Requested Start Date/Time** and the next planned Meal Plan from the **Diet Type** dropdown.

3. In **Special Instructions**, add a comment “Continue with Meal Plan [X] until end of day [date]”.

4. Click **Sign**.

Note: The current meal plan order will discontinue immediately. However, Kitchen will continue to send meal trays until the new meal plan order is implemented.
