

## Term Infant Formula – Standard (Non-NICU)

1. Search **PED Feeding** to bring up the Module.

This will populate all the relevant orders and you can select the appropriate diet/formula order for the patient.

2. Select **Term Infant Formula - Standard (Non-NICU)** from the Module. Right-click, select **Modify**.

	Component	Status	Dose ...	Details
<input type="checkbox"/>	Maintain Head of Bed			T;N
Diet/Nutrition				
<input type="checkbox"/>	Breastfeed, Exclusive (Breastfeed)			T;N
<input type="checkbox"/>	Expressed Breast Milk (EBM) (Expressed Breast Milk wi...			T;N
<input type="checkbox"/>	<b>Term Infant Formula - Standard (Non-NICU)</b>			T;N
<input type="checkbox"/>	Term Infant Formula - Therapeutic (Non-NICU)			T;N
<input type="checkbox"/>	Preterm Infant Formula (Non-NICU)			T;N
<input type="checkbox"/>	Pediatric Formula: Child 1-13 Years			T;N
