

CST PRACTICE UPDATE

GETTING YOU READY FOR THE TRANSFORMATION

INTAKE & OUTPUT (I&O) STANDARDIZATION – DOCUMENTATION

OVERVIEW

- ▶ I&O 12 hr. total will now be at 1800
- ▶ I&O 24 hr. total will now be at 0600
- ▶ New Flowsheet after 0600 totals (MAR remains 0400)
- ▶ New Q4 hourly totals: 0600, 1000, 1400, 1800, 2200 & 0200

KEY PRINCIPLES

- Standardized fluid balance documentation in all clinical areas across C&W
- Consistent fluid balance intervals for patients transferred between clinical areas with C&W and all sites using CST Cerner
- Alignment with CST Cerner Auto Totaling

Reduce errors and adverse events

Improve quality and consistency of care

SUPPORTING DOCUMENTS

1. What it looks like in CST Cerner: [Documenting Intake and Output](#) [CST Cerner Help]
2. [Instructions for Use of BCCH & SHHC Inpatient Flowsheet](#) [BCCH ePOPS Procedure]
3. [Fluid Replacement](#) [BCCH ePOPS Procedure]
Under review to reflect new time blocks
4. [Maintaining IV Infusion Therapy](#) [BCCH ePOPS Procedure]
Under review to reflect new times
5. [Peripartum Fluid Balance Management](#) [Maternal Newborn ePOPS Procedure]
Under review to reflect new times in flowsheet appendices
