<https://zoom.us/join> Meeting ID: 652 5721 0705 Password: 084973

See the new Zoom Help Guide [here](#)

Topic	Practice
2 NEW TOPICS INCLUDED IN PRACTICE UPDATE	

**!Review Schedule**  
when starting,  
changing or tapering  
dose/frequency of  
medications

Always review the medication schedule on **!Review Schedule** when starting, changing or tapering dose/frequency of medications. Depending upon when the order is placed, the system may schedule the first dose at the time of ordering (e.g. when ordering daily and BID drugs). This may lead to a higher dose than intended by the prescriber unless corrected in Review Schedule.

1. Add the order by clicking on **New Order Entry**  or finding the correct order from the **Quick Orders** page.
2. Click on the order to view **Order Details**. Mandatory fields will be marked by an asterisk \*.

Details for **insulin regular**

Details | Order Comments

+     

\*Dose: 15

\*Dose Unit: unit

\*Route of Administration: subcutaneous

\*Frequency: TID before food

3. Review the system selected start date and time of the order.
4. If you see **Review Schedule**, please review the **Start Date/Time** in relation to the next scheduled administration time.

Details for **insulin regular**

<p><b>Faxing from Documents from the Patient Chart</b></p>	<ol style="list-style-type: none"> <li>1. Print Documents from the Patient Chart in PowerChart using Medical Records Request functionality</li> <li>2. Fax the document as per current practice using a standard fax machine and cover sheet including: <ul style="list-style-type: none"> <li>• the intended recipient</li> <li>• who the sender is</li> <li>• how to contact the sender for follow up or if the fax goes to the wrong recipient</li> </ul> </li> </ol> <p><b>While it is possible fax directly from PowerChart, this practice is not recommended</b> because the enterprise CST Cerner fax coversheet does not allow the sender to include some of this essential information to protect privacy and security of patient information, and to ensure the receiver can contact the sender if follow up is required.</p> <p><a href="#">CST Cerner Help – Print (or Fax) Documents from the Patient Chart</a></p>

<p><b>Notes: Sign or Save?</b></p>	<div style="display: flex; align-items: center; gap: 10px;"> <div style="border: 1px solid gray; padding: 2px 5px;">Save</div> <div style="border: 1px solid gray; padding: 2px 5px;">Save &amp; Close</div> </div> <p><b>Saving</b> your notes means that you're coming back to it...<b>others can't see your note.</b></p> <p><b>Use with care</b> – as this may mean there is Missing information that is important for patient care. You can see if you have saved notes by opening message center. It is recommended to go to message center at least once a day and definitely at the end of a clinical shift.</p> <div style="display: flex; align-items: center; gap: 10px;"> <div style="border: 2px solid red; padding: 2px 5px; margin-right: 5px;">Sign</div> <p><b>Signing</b> means your note is completed and <b>ready to share with others.</b> Your note then becomes part of the patient chart.</p> </div>
