

REFERRAL TRIAGE

Go to the  **Referral Management** page

Select the **Location: BCW Hematology** and the **Referral Status: Ready for Triage** & click **Run** (CST will remember your settings)

The screenshot shows the Referral Management interface. At the top, there are several filter dropdown menus: 'Location' (set to BCW Hematology Clinic), 'Referral Status' (set to Ready for Triage), 'Medical Service', 'Tumour Group', and 'Triaging Priority'. A 'Run' button is visible on the right. Below the filters is a table with columns for Patient Name, Age, Gender, Reason for Visit, Referral Received Date, Referral Status, Ready for Triage Date/Time, Encounter Comments, Communication Notes, Medical Service, Tumour Group, Referred By, Triaging Provider, Triaging Priority, Primary Care Provider, and BC Cancer External Refe. The table is currently empty.

The list of patients awaiting triage will appear and you can click into their chart from the list.

After reviewing the chart you will decide if you want to place an **Accept Referral**, **Reject Referral**, or **Referral Information Request** (If more investigation/info is needed on the referring end).

New Order Entry

PATIENT LIST

Create a custom list where you can add your patients manually to keep track of on  **Patient List**

Click on  -> then -> select **Custom**-> **Next** ->

Enter a name for the list: (Limited to 50 characters)

BCW Hematology

You can name the list and hit finish. There are options above the naming section if you wish to add criteria but for outpatients, they will need to be added manually.

To **add a patient**, select the person icon and search by MRN/name, select the Hematology encounter so when you open the chart it will take you to that encounter.
