

Providers: Changes to Bilirubin Lab Orders at C&W Update - Laboratory Order

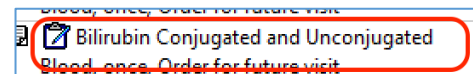

HIGHLIGHTS

- ▶ March 7, 2023 @1030, **Bilirubin Conjugated/Unconjugated and Bilirubin Conjugated/Unconjugated Cord Blood** will no longer be orderable at C&W. Bilirubin Total and Direct, and Bilirubin Total Cord Blood will be available instead.
- ▶ Bilirubin Conjugated will continue to show in system. It is a synonym of Bilirubin Direct.
- ▶ Orders in future state (outpatient) will be remediated over March 7-9 by C&W Clinical Informatics Dept.
- ▶ Orders in active and “in process” state, and newborn orders will be remediated by C&W Lab

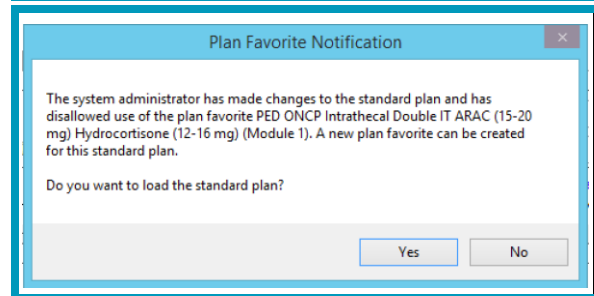

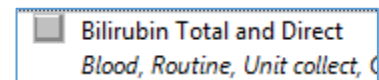

ACTION

- ▶ **PROVIDER ACTION REQUIRED:** Ensure order hygiene is up to date without duplicate orders.
- ▶ Update customized Powerplans saved to own favourites that contain bilirubin orders. A pop up window will prompt updates

BEFORE MARCH 7 @ 1030

AFTER MARCH 7 @ 1030

KEY POINTS TO REMEMBER

- ▶ For support with order hygiene, please see [CST Cerner Help – Order Profile Remediation](#)
- ▶ Liver Panel orders will be automatically updated
- ▶ Bilirubin Direct replaces conjugated
- ▶ Bilirubin Total detects all bilirubin
- ▶ Phototherapy and hyperbilirubinemia risk thresholds remain the same. For further information, see Practice Update
