

Returning the Product Tag to TML from Units in the 1982 building

What is New?

- Return the product tag “tag” by pneumatic tube system (PTS) to station 343 (Lab/accessioning)

Why?

- Returning the product tag by internal post is too slow

How does this affect my practice?

- Return the tags to TML by the PTS at the end of the transfusion
 - put the tag in an **envelope** marked “**Forward to TML**”, and
 - send to **tube** number **343** (Lab/accessioning)

Location: CT8A0000
Name: TML,SBCTXM
MRN 654987321
Date of Birth: 01/04/2010
