

Steps for providers to create a
Medication List Document for
patients to take home at
discharge

Creating a Discharge Medication List Note to give to the patient upon discharge

Preferred way to access the Medication List

Transfer/Discharge

- Significant Findings ...
- Procedures and Treatment Provided ...
- Post Discharge Follow Up (D/C Summary) ...
- Discharge Disposition ...
- Hospital Course (shared) ...
- Expiration Record ...
- Discharge Medication Reconciliation ...
- Care Team ...
- Newborn Discharge Exam ...
- Discharge Planning ...
- Patient Instructions (Patient Handout) ...
- Patient Information ...
- Microbiology Other ...

Create Note

- OB Discharge Summary
- GYN Discharge Summary
- Newborn Discharge Summary
- Patient Discharge Handout
- Patient Discharge Medication List**
- Select Other Note

- Need to complete discharge medication reconciliation PRIOR to creating this document
- 2 ways to create the note (see screen shots). Using the blue link in the transfer/discharge tab is the quickest way to access the note
