Document Discharge Medication List given to Patient

The screenshot shows a medical software interface with a sidebar menu on the left and a main content area on the right. The sidebar menu includes items like 'Women's Health Overview', 'Interactive View and I&O', 'Single Patient Task List', 'MAR', 'Orders', 'Results Review', 'Notes', 'Documentation', 'Allergies', 'Diagnoses and Problems', 'CareConnect', 'Form Browser', 'Perioperative Doc', 'Appointments', 'Calculators', 'Care Coordination', 'Clinical Research', 'Diabetes Management Workflow', 'Growth Chart', and 'Histories'. The main content area is titled 'Interactive View and I&O' and contains a list of tasks. The 'OB Education' section is expanded, showing 'Teaching Method and Response' with sub-items: 'Antepartum/L&D Education', 'Postpartum Education', 'Feeding History and Plan', and 'Breast/Bottle Feeding Education'. The 'Postpartum Education' item is selected, and a detailed view of 'Home Medication Teaching' is shown. This view includes a search bar, filter checkboxes (Critical, High, Low, Abnormal, Unauth, Flag), a date and time stamp (03-Mar-2023, 13:00 PST), and a list of tasks. The 'Home Medication Teaching' task is highlighted, and a dropdown menu is open, showing options: 'Verbalizes understanding' (checked), 'Demonstrates', 'Needs further teaching', 'Needs practice/supervision', 'Independent', and 'Other' (checked). Below the dropdown menu, the text 'Discharge Medication List Given' is visible.
