

INTERIM WORKFLOW – TRIPLE LUMEN PARENTERAL NUTRITION ORDER FOR NICU STANDARDIZATION - ORDER ENTRY

OVERVIEW

- ▶ CST-CERNER does not have an option to order triple lumen access parenteral nutrition orders (e.g., 1 bag, 2 syringes)
- ▶ Post-implementation optimization has been scheduled
- ▶ An interim workflow is available

KEY PRINCIPLES

- To order parenteral nutrition for a triple lumen line:
 - Provider to document the parenteral nutrition order
 - Provider to select 1 bag, 1 syringe option from parenteral nutrition order dropdown

Parenteral Nutrition Order Form

NICU Infants

PN SHOULD ALWAYS BE ADJUSTED ACCORDING TO THE BABY'S CLINICAL CONDITION.
THE FOLLOWING ARE GUIDELINES FOR INITIATION AND ADVANCEMENT WITH A TARGET GOAL.
WEAN BASED ON CLINICAL CONDITION, GROWTH, FEEDING TOLERANCE, AND IV ACCESS.

| Location | Weight | Admin Date | Access | Bag Options |
|------------------------|--------|-------------|---------|----------------------------|
| BCW T2C NICU; 01; 2303 | 3.6 kg | 27-FEB-2022 | Central | 1 bag 1 bag + 1 syringe |

- Provider to document the need for a second syringe in comments “Provide additional syringe (total = 1 bag + 2 syringes)”
- Pharmacy will identify the second syringe on the Medication Administration Record for nursing administration and documentationD
